Lunchtime!

Can you help the otter decide what to eat for lunch?

Draw arrows to two things that the otter would eat for lunch.

Nuts

Fish

Chips

Grass

Frogs

Otter Signs

Otters are very shy and hard to find. Become an otter detective and look for the signs that otters leave behind.

An otter might live under this tree - we call this an otter holt. Baby otters might be born in here. We call them kits.

An otter footprint - these might be left on a muddy bank.

An otter dropping or poo! This might be left on top of a rock and is full of fish bones. We call this an otter spraint.
